

# MILK PLUS 36

Product No. 1109

Form: Pellet

A very palatable, pelleted high bypass supplement with added fat. Formulated to be fed to high producing cows. It may be top dressed or mixed with grain.

### FEATURES AND BENEFITS

- Increased fat for added energy needed by early lactation cows
- Good source of bypass protein to provide quality undegradable protein resulting in improved milk production potential
- Nutrient balanced for greater milk production and increased profits
- Pelleted for increased palatability

### DIRECTIONS FOR USE

Can be top dressed, mixed into a grain mix or mixed directly into a TMR. The protein level of the grain mix depends on the quality and type of forage(s) being fed, as well as the level of milk production. Forage quality must be analyzed to determine accurate ration balancing and feeding recommendations. Provide plenty of fresh, clean water at all times.

### GUARANTEED ANALYSIS

Crude Protein	(Min)	36.0 %	Phosphorus (P)	(Min)	1.0 %
Crude Fat	(Min)	8.0 %	Selenium (Se)	(Min)	2.4 ppm
Crude Fiber	(Max)	5.5 %	Vitamin A	(Min)	30,000 IU/lb
Acid Detergent Fiber	(Max)	8.5 %	Vitamin D3	(Min)	6,000 IU/lb
Calcium (Ca)	(Min)	1.2 %	Vitamin E	(Min)	40 IU/lb
Calcium (Ca)	(Max)	1.7 %
