

DRY COW PLUS R200

Product No. 1119

Form: Flowability Pellet

A protein and mineral supplement fortified with monensin to meet the needs of today's dry cows.

MEDICATED

Monensin 200 g/ton. Equivalent to 100 mg monensin/lb.

FEATURES AND BENEFITS

- 2:1 calcium to phosphorus ratio which is ideal for grass hay and corn silage rations
- Contains monensin (Rumensin®) for improved energy utilization when cows are in negative energy balance and prone to metabolic problems
- Rumen undegradable protein sources to increase the amino acid supply for transitioning cows
- Fortified with trace minerals to balance compatible forage programs
- High vitamin E and selenium levels to promote good health
- Added Zinpro Performance Minerals (Zn, Mn, Cu, Co) for highest biological availability possible for numerous health and production benefits
- All selenium from Sel-Plex® organic selenium for highest biological availability and tissue retention

DIRECTIONS FOR USE

Feed 2 lb/head/day to dry cows to provide 200 mg monensin/head/day. Feed continuously in a component feeding system (including top dress). This product contains 100 mg monensin/lb. Provide plenty of fresh, clean water at all times.

GUARANTEED ANALYSIS

Crude Protein	(Min)	32.0 %	Calcium (Ca)	(Max)	3.5 %
Crude Fat	(Min)	2.0 %	Phosphorus (P)	(Min)	1.4 %
