

FORAGE EXTENDER

Product No. 1125

Form: Pellet

Forage Extender is a 17% crude protein pellet that can be used to extend forage supplies following winter kill, drought, excessive rainfall or any other disruption to the normal growing and harvesting season.

FEATURES AND BENEFITS

- 17% protein supports the protein already present in the ration
- Macro-mineral content mimics the macro-mineral content of alfalfa hay
- Fortified with trace minerals and vitamins
- Pelleted for convenience and to minimize waste
- Highly palatable

DIRECTIONS FOR USE

Feed to dairy cows or youngstock at the rate of 2 to 8 pounds per head per day to extend forage supplies. Please consult with your Famo Feeds dealer or representative for information concerning specific rations or mixes. Provide plenty of fresh, clean water at all times.

GUARANTEED ANALYSIS
