

SELECT STARTER BOOSTER 0.5

Product No. 1426

Form: Pellet

Select Starter Booster 0.5 contains feed additives to improve the performance of stressed cattle. It should be fed at 0.5 lb/day for 14 to 28 days along with the normal supplement program.

FEATURES AND BENEFITS

- Chromium Propionate which has improved dry matter intake, average daily gain, and feed efficiency in steers (Texas Tech University)
- Celmanax™ which has improved dry matter intake and average daily gain in heifers during a 35 day receiving period
- ZinPro Availa-4 which increased gains and decreased morbidity during the receiving period (Colorado State University)
- Low feeding rate to allow for the option of handling in bags

DIRECTIONS FOR USE

Feed 0.5 lb/head/day for 14-28 days to recently weaned, transported, comingled, heat stressed, or otherwise stressed cattle. This feed should be fed along with concentrate, grain, and forage. Select Starter Booster 0.5 should be fed along with the normal concentrate program.
