

FULL-FLEDGED GAME BIRD STARTER

Product No. 1800

Form: Crumble

A non-medicated, crumblized, 30% protein, complete game bird starter that is very palatable.

FEATURES AND BENEFITS

- 30% crude protein to meet requirements for game birds
- Multiple protein sources meet amino acid requirements
- Very palatable feed that encourages early consumption, less starve outs
- Feed is crumblized – no separation; reduced feed waste; improved growth rate and feed efficiency
- Complete feed – no mixing necessary

DIRECTIONS FOR USE

Turkeys, because of their inbred potential for growth, need higher protein levels for a longer time period than game birds. Ducks do not require such high protein levels. Provide plenty of fresh, clean water at all times.

Period Ration

PHEASANTS AND QUAIL

First 4 Weeks	Feed Game Bird Starter, as is
5 th – 9 th weeks	Feed 2/3 Game Bird Starter, 1/3 scratch
10 th week onward	Feed 1/3 Game Bird Starter, 2/3 scratch
