

FULL-FLEDGED ESSENTIAL GAME BIRD BREEDER

Product No. 1802

Form: Pellet

A non-medicated, 18% crude protein, pelleted breeding ration for game birds.

FEATURES AND BENEFITS

- Higher calcium and phosphorus levels meets the need of breeding birds and egg production
- Higher vitamin levels improves breeding performance
- Pelleted feed – no separation, reduced feed waste and improved growth rate and feed efficiency
- Complete feed – no mixing necessary
- Contains a blend of essential oils to support gut health and immunity.

DIRECTIONS FOR USE

Feed as a complete feed starting one month before breeding – continue this through the breeding season. Keep feeders and waterers clean and filled. Supply oyster shells and grit. Provide plenty of fresh, clean water at all times.

GUARANTEED ANALYSIS
