

FULL-FLEDGED ESSENTIAL GAME BIRD HOLDING

Product No. 1803

Form: Pellet

A 16% protein, pelleted feed designed to be fed to game birds that will be released for flight.

FEATURES AND BENEFITS

- Balanced protein and energy to keep bird in “flight” shape; maintain growth – not just added weight
- Pelleted feed – no separation; reduced feed waste
- Complete feed – no mixing necessary
- Contains a blend of essential oils to support gut health and immunity.

DIRECTIONS FOR USE

Start feeding at maturity (approximately 16 weeks) and continue until release. Feed approximately 1.2 lb/bird/week. Feeding too much may get the birds too heavy. However, if feed is restricted too much, it may cause the birds to molt. Provide plenty of fresh, clean water at all times.

GUARANTEED ANALYSIS

Crude Protein	(Min)	16.0 %	Calcium (Ca)	(Min)	0.6 %
Lysine	(Min)	0.75 %	Calcium (Ca)	(Max)	1.1 %
Methionine	(Min)	0.40 %	Phosphorus (P)	(Min)	0.7 %
Crude Fat	(Min)	3.0 %	Salt (NaCl)	(Min)	0.1 %
Crude Fiber	(Max)	7.0 %	Salt (NaCl)	(Max)	0.6 %
