

MILK ENERGIZER

Product No. 1916

Form: Powder

A high-energy, instantized dry fat source for increasing the total energy level of milk replacer.

FEATURES AND BENEFITS

- Provides additional energy to maintain consistent growth during bouts of cold weather as calves exposed to ambient temperatures below 59°F will utilize energy for warmth rather than growth
- Reduces need for providing an additional feeding
- Easy to handle dry formula
- Easily mixed into liquid feed for quick delivery

DIRECTIONS FOR USE

According to ambient temperatures and calf weight as indicated on Cold Weather Feeding Chart, add Milk Energizer into milk replacer solution. Information on the Cold Weather Feeding Chart below is approximate.
