

HERD BUILDER HI MED PLASMA NT MOS

Product No. 1935

Form: Powder

A medicated calf milk replacer with the maximum allowable level of neomycin sulfate and oxytetracycline hydrochloride for treatment of bacterial enteritis and bacterial pneumonia and treatment/control of colibacillosis. Contains MOS.

MEDICATED

Neomycin Sulfate 1,600 g/ton and Oxytetracycline 1,600 g/ton.

FEATURES AND BENEFITS

- Contains plasma which is highly beneficial in times of stress to decrease mortality and morbidity rates
- High quality fat (edible grade) provides extra energy for greater rates of gain
- Instantized (agglomerated) for fast mixing
- Medicated with maximum level of Neo/Oxy for the treatment of bacterial enteritis and bacterial pneumonia and treatment/control of colibacillosis
- Contains Safmannan® which positively impacts immune system; lessens colonization of the intestinal tract with infective pathogens; promotes intestinal health
- All selenium from Sel-Plex® which is stored in tissue and better utilized

DIRECTIONS FOR USE

Feed the medicated milk replacer solution TWICE daily according to the following schedule. Feed continuously for 7 to 14 days in place of your normal milk replacer.

Calf Weight (lbs.)	Neo & Oxy (mg/day)	Powder (oz.)	Water (qt.)	Feedings per Day
80	800	8	2	2
100	1000	10	2	2
120	1200	12	2	2
140	1400	14	3	2
