

STABLEMATE SENIOR

Product No. 2105

Form: Pellet

A complete, forage included, 14% protein pellet designed specifically for the mature horse.

FEATURES AND BENEFITS

- Complete feed so there is nothing to add or mix; simplifies the feeding program
- Forage included contains necessary roughage in the pellet
- Pellets softened with molasses/soy oil for chewing ease for the tender mouthed horse; improved palatability
- High fiber provides bulk to lessen digestive upsets when forage is limited
- Supplemented with minerals and trace minerals for strong bones, sound structure, teeth, ligaments

DIRECTIONS FOR USE

Stablemate Senior daily feeding rate/100 lb body weight	
	lb
Mature idle horse	1 ¼ - 1 ½
Light use	1 ½ - 1 ¾

More or less feed may be fed depending on the condition of the animal and the work required. Some horsemen may still want to feed a small amount of hay daily. Provide plenty of fresh, clean water at all times.
