

# STABLEMATE 14

**Product No. 2106**

**Form: Texturized**

A 14% crude protein, texturized complete horse feed; designed to be fed along with good quality hay.

## FEATURES AND BENEFITS

- 14% protein helps supply protein when lower quality hay is fed
- Complete feed so there is no mixing; simplifies programs
- Steam rolled corn for improved digestibility
- High quality molasses is very palatable
- Full vitamin fortification for energy utilization, vision, hoof integrity, appetite stimulation
- Supplemented with minerals and trace minerals for strong bones, sound structure, teeth, ligaments
- Added Zinpro Performance Minerals® (Zn, Mn, Cu, Co) for high biological availability

## DIRECTIONS FOR USE

Stablemate 14 is to be fed with hay, timothy or clean, bright clover. Horses eat about 1 1/4 lb of hay per 100 lb of body weight per day regardless of age or activity. Adjust the amount of Stablemate 14 to meet the need of the individual animal depending on its size and activity.

<u>Class of horse</u>	<u>Daily amt./100 lb body weight</u>	
Pleasure horses		For best results and good health for your horse, provide plenty of fresh, clean water at all times.
