

# MAINTAIN PLUS

Product No. 2204

Form: Pellet

A pelleted supplement designed to be fed to lactating dairy or beef cattle to sustain hydration during hot weather.

## FEATURES AND BENEFITS

- Contains electrolytes and buffers to prevent dehydration; replaces minerals lost in sweating
- Contains sugars as an energy source for rumen microbes and to aid absorption of electrolytes; enhances palatability
- Contains yeast culture to stimulate rumen fermentation and feed intake; assists in fiber digestion; helps maintain intestinal microbial balance
- Contains Niashure® which dilates blood vessels allowing heat to dissipate through the skin

## DIRECTIONS FOR USE

For lactating dairy or beef cattle: Feed 6 oz. Maintain Plus/head/day during mild heat stress or 12 oz. Maintain Plus/head/day during moderate to severe heat stress. Feed Maintain Plus whenever dehydration is a concern/risk. Up to 16 oz. Maintain Plus/head/day may be fed for 2 – 3 days before cattle are shipped or newly received. Maintain Plus should not be fed alone. It should be top dressed, mixed with other feedstuffs or fed in a TMR. Provide plenty of fresh, clean water at all times. Do NOT feed Maintain Plus to dry cows.

## GUARANTEED ANALYSIS

Crude Fat	(Min)	4.0 %	Sodium (Na)	(Min)	1.0 %
