

# COW DRINK

**Product No. 2214**

**Form: Powder**

A drinkable, one-time, palatable, water soluble, high energy, high calcium supplement for fresh cows designed to increase intake and reduce metabolic diseases.

## FEATURES AND BENEFITS

- Drinkable to replace drenching
- Very palatable and easy to use
- Contains glucose and glucose precursors for quick energy, increased appetite and reduced risk of ketosis
- Highly available calcium source for lowered milk fever risk
- Electrolytes for fluid balance
- Vitamins and microelements to support immune system function

## DIRECTIONS FOR USE

Use Cow Drink right after freshening, before the cow drinks anything else. Mix 27 ounces into 4 gallons of warm water (90°F- 105°F). Water temperature is critical for aroma. If the drink does not turn orange, then the water is not at the proper temperature. Offer Cow Drink again within 12 hours of freshening if the cow is still weak or appetite (dry matter intake) is still low. One 25 lb bag contains 14 doses of 27 ounces. CAUTION: Store in a dry, well-ventilated area free from rodents and insects. Do not use moldy or insect-infested feed.

## GUARANTEED ANALYSIS

Crude Protein	(Min)	4.5 %	Salt (NaCl)	(Min)	6.5 %
Crude Fat	(Min)	2.5 %	Salt (NaCl)	(Max)	7.5 %
Crude Fiber	(Max)	0.1 %	Sodium (Na)	(Min)	4.0 %
Acid Detergent Fiber	(Max)	0.1 %	Sodium (Na)	(Max)	5.0 %
Calcium (Ca)	(Min)	7.5 %	Magnesium (Mg)	(Min)	1.2 %
Calcium (Ca)	(Max)	8.5 %	Selenium (Se)	(Min)	2.0 ppm
Phosphorus (P)	(Min)	0.2 %	Vitamin A	(Min)	225,000 IU/lb
