

DAIRY MICRO VTM

Product No. 2512

Form: Mineral

A high concentration, low inclusion trace mineral and vitamin package designed to be mixed into a grain mix, protein supplement or TMR.

FEATURES AND BENEFITS

- High trace element concentration for low inclusion rate
- No phosphorus added. Calcium is used as a carrier
- Added Zinpro Performance Minerals (Zn, Mn, CU, Co) for highest possible biological available sources of trace minerals; eliminates the need to over formulate inorganic trace minerals over lower bioavailability values; minimizes total sulfate levels in diets and decreases heavy metal concentration in animal waste
- Added Sel-Plex® (organic selenium) for highest biological activity, greater tissue retention, and support low somatic cell counts

DIRECTIONS FOR USE

Feed 0.1 lb/head/day or as recommended by your Famo Feeds representative. This product is a highly concentrated source of vitamins and trace elements; it must first be mixed with a grain or a protein or into a TMR before feeding. Provide plenty of fresh, clean water at all times.
