

ALL STAR B1440 RANGE MINERAL

Product No. 2517

Form: Mineral

Approved for free choice use in all classes of pasture cattle. It is formulated to supply supplemental macro minerals, trace minerals and vitamins. This mineral is medicated with Bovatec for increased weight gain.

MEDICATED

Lasalocid (as lasalocid sodium) 1,440 g/ton. Equivalent to 720 mg/lb.

FEATURES AND BENEFITS

- Bovatec for increased rate of weight gain in pasture cattle
- Approved for free choice feeding making it convenient
- Balanced mineral and vitamin profile which supports optimal weight gain in growing animals

DIRECTIONS FOR USE

Feed continuously on a free choice basis. Pasture and roughage should be adequate to assure consumption of this mineral at the rate of 1.34 – 6.66 oz/head/day (which provides for 60 – 300 mg lasalocid). If cattle consume more or less than these amounts, try moving mineral feeder farther or closer to the general resting or water areas. Daily intakes of lasalocid in excess of 200 mg/head/day (4.44 oz/head/day of this mineral) have not been shown to be more effective than 200 mg/head/day. Provide plenty of fresh, clean water at all times. May also be mixed into a grain, protein or TMR at the rate of 2 – 4 oz/head/day to provide 90 – 180 mg lasalocid/head/day. Must be contained in at least 1 lb of feed. Provide plenty of fresh, clean water at all times.

GUARANTEED ANALYSIS

Calcium (Ca)	(Min)	14.0 %	Copper (Cu)	(Min)	660 ppm
Calcium (Ca)	(Max)	16.8 %	Iodine (I)	(Min)	40 ppm
