

BEEF BUILDER 8

Product No. 2562

Form: Mineral

Beef Builder 8 Mineral is formulated to supplement the diets of brood cows and young stock on summer pasture or when consuming stored forages.

FEATURES AND BENEFITS

- Trace mineral and vitamin fortification appropriate for brood cows and young stock provides micronutrients that need to be provided on a year round basis for optimum productivity
- Sulfate forms of copper, manganese and zinc, formulated with trace minerals of high bioavailability for maximum effectiveness
- 8% phosphorus provides supplemental phosphorus to meet animal needs without wasting this expensive nutrient
- Dried distillers grains carrier provides a pleasant aroma to encourage mineral intake

DIRECTIONS FOR USE

Intake of mineral should be targeted at approximately 4 oz/head/day to adult animals. Young stock should consume 2 – 4 oz/head/day depending upon size. If mineral is offered free choice, it should be introduced over a 14 day period. Offer mineral daily during this period to prevent overconsumption. Mineral may also be mixed with grain and roughage and fed as part of a grain mix or total mixed ration.
