

SELECT CHOICE COPRODUCT BALANCER 0.5 B1400 MGA1

Product No. 5135

Form: Mineral

Select Choice Coproduct Balancer 0.5 B1400 MGA1 is a mineral supplement formulated for feedlot heifers on corn coproduct (distillers grains or corn gluten feed) feeding programs.

MEDICATED

Lasalocid (as lasalocid sodium) 1400 g/ton. Equivalent to 700 mg lasalocid/lb.

MGA (melengestrol acetate) 2 g/ton. Equivalent to 1 mg melengestrol acetate/lb.

FEATURES AND BENEFITS

- Feeding corn distillers and/or corn gluten feed along with a Select Choice Coproduct Balancer 0.5 B1400 MGA1 is an extremely economical feeding program under many market conditions.
- Medicated with lasalocid (Bovatec®) for increased rate of gain and MGA for improved feed efficiency and suppression of estrus in heifers.
- High calcium content balances out the high phosphorus content of corn distillers and corn gluten feed.
- Includes added thiamine as is indicated in high corn coproduct diets.

DIRECTIONS FOR USE

Feed 0.5 lb of Select Choice Coproduct Balancer 0.5 B1400 MGA1/head/day to provide 350 mg lasalocid and 0.5 mg MGA/head/day. Provide plenty of fresh, clean water at all times.
